Introduction

Altro is a manufacturer of sustainable floor and wall systems for commercial and domestic spaces, established in 1919. We operate globally, providing a customer-centric range of creative and technical solutions across all sectors. From focusing on different sectors' performance needs to meeting the need for environmentally sustainable materials, Altro are constantly challenging what is possible and seeking new ways of inspiring our customers. We combine the best in contemporary style with the functionality required to improve the way we all live and work, wherever in the world that may be. Altro: Designed for possibilities - made for people.

Floors

At Altro, we have been at the forefront of flooring innovation for over 100 years. As the original creators of safety flooring, and more recently, inventing the first adhesive-free safety floor, we believe in the power of design. Our extensive range of flooring solutions provides the durability, versatility and the appearance that you are looking to achieve for your commercial environments.

From hard-wearing flooring and safety flooring solutions to smooth flooring and resin flooring, our products offer the level of quality and safety you would expect from an experienced commercial flooring manufacturer.

Walls

The Altro walls system launched over 35 years ago and has been a market leader ever since.

We invented the hygienic walls system in 1982, which is Hazard Analysis and Critical Control Point (HACCP) approved.

Our fire-compliant, hygienic, and impervious walls systems also include the reassurance of a guarantee of up to 30 years.

As an alternative to tiles, we offer a tile-effect wall cladding delivering a contemporary decorative solution that fits with any design.

And don't forget; if it's not Altro, it's not Whiterock.
